

NOTICE

To: Commercial Haulers / Businesses/Residents

Subject: Unsorted Waste and Black Bags

Effective September 1, 2015 CNWM will impose a tipping fee increase to \$180 a tonne for any unsorted waste coming to any of the CNWM sites. This increase will apply to any mix of blue and clear bags and any black bags. CNWM have a band on accepting black bags at any of its sites and we are encouraging all to participate in the Sort-It Program at the lower tip fee cost of \$122 a tonne.

Only exception for black bag will be on a permit basis only. Customers will have to put in writing to CNWM the content of their waste and why they will request a permit to continue to use black bags i.e. funeral homes, hospitals, veterinary clinics and slaughter houses.

If your business falls in one of these categories please put in writing to CNWM your case and it will be reviewed by the CNWM Board for approval. Otherwise if a black bag comes to one of the sites you will automatically be charged the increased tip fee of \$180 /tonne for your entire load.
